

# Telematics solutions for your business

Whether you're a small or large business and your telematics needs are simple or advanced, we have the right solutions for you. Our Kinesis Fleet and Kinesis Pro software is matched to meet your business needs, helping you access fleet insights easier and faster with simple user navigation.

Get a full view of your fleet with our advanced telematics system. Track locations in real-time, monitor driver and vehicle performance, view dash camera footage, download ELD data plus much more. Our solutions allow your business to streamline your fleet management processes and improve operational performance.

## Vehicle cameras

- ✔ Defend your business against false insurance claims
- ✔ Improve the safety of your drivers on the road
- ✔ Receive early notification of potential accidents on the road

## Vehicle tracking

- ✔ Locate and track trip history
- ✔ Monitor idle time and inefficient routing to reduce maintenance and fuel costs
- ✔ Identify poor driving behavior to increase safety

## Asset tracking

- ✔ Monitor location and movement anytime
- ✔ Reduce unauthorized use and aid stolen asset recovery
- ✔ Move the tiny, battery-powered trackers from one asset to another with ease

## Regulatory compliance

- ✔ Easily record Hours of Service and drive time with ELD
- ✔ Simplify fuel tax reporting for IFTA with automated reports
- ✔ Maintain CARB certification with maintenance monitoring

## Additional solutions

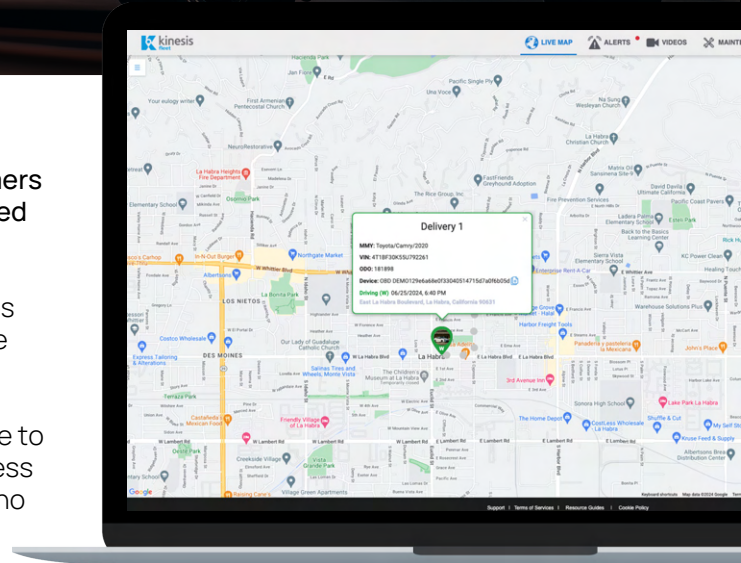

- ✔ Reduce unexpected breakdowns and extend vehicle life by using advanced data analytics with our preventative maintenance tool
- ✔ Minimize travel time with optimized routing that provides accurate, turn-by-turn directions tailored to each trip's unique requirements
- ✔ Boost safety, performance and efficiency with driver coaching and professional trip planning

# Why choose us for your vehicle tracking?

At Radius, we have been providing vehicle and asset tracking, as well as vehicle camera solutions, to customers since 2015. We have customers in 37 countries supported by operations in 19 countries around the world.

Our technology tracks and monitors over 650,000 vehicles and assets, empowering our customers to run safer, more efficient fleets.

Our web and mobile app-based tracking software is simple to use with a wide range of features to suit what your business needs. We make it easy for fleet owners and managers who are often out of the office to keep eyes on their fleet.

## Manage your fleet with Kinesis

Stay connected to your fleet with our Kinesis platform, giving you access to location and performance information for your vehicles and assets:

- ✓ Live location
- ✓ Trip history
- ✓ Driver performance
- ✓ Alerts
- ✓ User hierarchy
- ✓ Driver ID
- ✓ API integration
- ✓ Fuel integration
- ✓ Reports & dashboards
- ✓ Geofencing
- ✓ Odometer capture
- ✓ Fuel/battery levels
